📅 June 13, 1988

📍 Danang, Vietnam

Objective

I have over 8 years of experience as a full-stack programmer. It mean I really experienced on developing an application. From scratch into well-done application, production ready. It starting from requirement engineering, database design, back-end process, API, and also good-looking user interface. All build with quality priority. For me, providing high quality of work and precise estimation is must.
