Anh H.
INTERN REACTJS DEVELOPER

Hanoi, Vietnam

protected@topcv.vn

[protected data]

OBJECTIVE

First I am an intern and i would like to have an opportunity to work for the company in professional environment.Besides i want to a fullstack developer ,so I decided to apply for the position.I will do my best during the process of studying and working in the company to improve my knowledge also complete the assigned tasks in the best way.

After I finished intern time, I think I have enough skills and knowledge to do as an official staff of the company, help the company grow up in the future.

Further I will become a leader or manager in my field after three or five years.
